

ELECTRIC EPD PUMP DRIVER 12 VOLT PUMP FLOW CONTROL

MICRO-TRAK
SYSTEMS, INC.

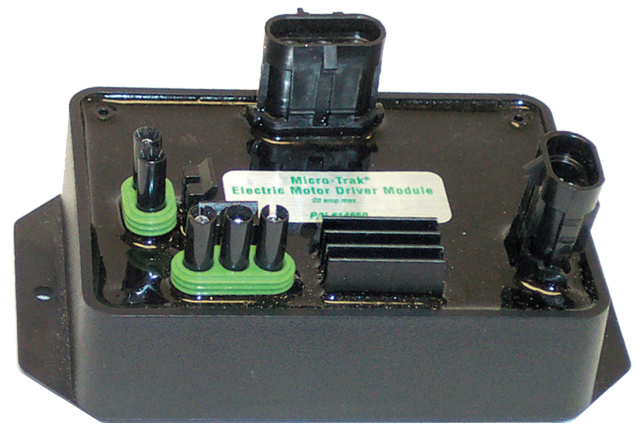

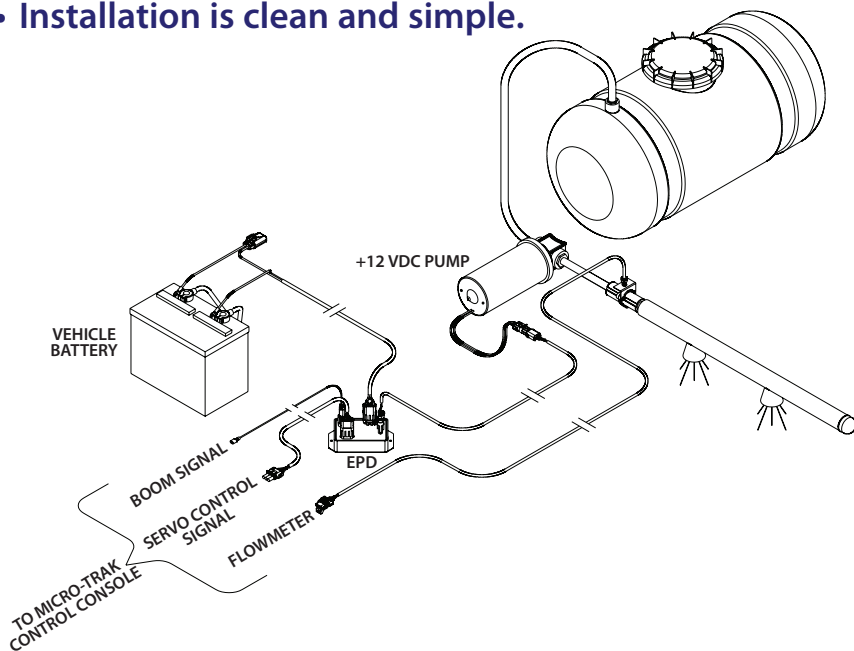

Micro-Trak's Electric Pump Driver (EPD) enables all Micro-Trak Rate Controllers (SprayMate™ II, MT-2405™F II, MT-3405D™F II, MT-3405™F II, MT-9000™, RoadMaster™ and Topcon, GS2, Trimble, Raven and AgLeader Third Party Adapter Kits) to control the rate of flow by regulating the speed of a 12 volt pump.

The EPD replaces the electric servo valve and will control most 12v pumps up to a max of 40 amps.

The system can be purchased as part of a customized kit complete with control console, speed sensor and flowmeter, or if you presently own one of the controllers listed above, you can just add the EPD kit and use your existing console and components.

- Precise, accurate and effective control of the application rate.
- Installation is clean and simple.
